WARRINGTON, April 20, 1898 In the Editor of the Il high Courter

On the 12th of February last, Mr. Grundy from the Committee on the Indictary, to whom was referred as much of the Message of the Pressdent'as relates to the usuing and reissuing, by the present Bank of the notes of the Old Bank, sade a report, annexing thereto an extraordinary Hill of pains and penalties, of which report. 10,000 copies were ordered to be printed. This was a sheer election eering trick, and the docuwent has been extensively circulated in the west and through the country, to excite and in the are the prejudices of the People against the Bhok, which more than all offiers, by its an luged and beral operations, has contributed to and the community to bear up under the evils inflicted upon it by the folly and imbeculity of the Administration. War to the knife is waged with Mr Biddle's Bank, as if it were an object more worthy the Congress of the United States, to attack and overthrow a State matitution, than to device and adopt measures to cure the evils of a deranged currency, and enable their constituents to retrieve and better the condition of their affairs. But the movement in question is us courceptible as it is melicious. It is adjuitted by all reflecting men; that the bill reported goes beyond the constitutional power of Congreat; and the committee reporting the same, well knew that it did not belong to the parisdiction Affingressin declare what should be an offense. committed by a State Bank, chartered by Pennaplyania, within her territorial jurisdiction 1 the Pennsylvania Brak of the United States make improper or unlawful issues of the notes of other banks, whose acts of incorporation have expired, or otherwise, such offence is definable and numeriable by the laws, of Pennsylvania alone But this proceeding of the Committee of the Senate was mean and unworthy the dignity of that body, because it sought to get before the community, by its report, and through the newspapers, an electroncering document, prejudicial to the Bank, when it was not believed that it could, or would be, the groundwork of any further action on the pirt of Congress. It might serve still further to prejudice the minds of some few ignorant holders of the notes of the old bank It might plans or intimidate some of the stockholders, or officers of the Bank, to be threater. ened with a fine of ten thousand dollars, and impresenment to hard labor for ten years. It was a melicious menuce, showing a disposition, le fond the power to go nuschief. Congress it would seem, has not only determined to do nothing to relate the country, but on the contiary, it would be giad, it seems, to go beyond P-penera, to hinder the ben-fits that may be environd upon the public ty Burenaminations; It is a well established fact, that the issue of the notes of the old Bank of the United States, af forded a great measure of relief to a portion of the Teople, and it that emission could have ben quadrupled, and loaned at six per cent, it spith have kept thousands from the gripe of nsuriogs brokers, who have made them pay 12 at 100 per ata. Il Congress a most be emptoyed becoming manner than in thus play

ing the "dog in the manger," it had bester ad journ without day. The action of the Government and the neces sities of the country, have placed Mr. Biddle in a position formulable enough to mortify and alarm the party which has attempted to prostrate him. The benefits conferred on Pennsylvania are mealculable. Such benefits ought to have been conferred on all the States of the Union by the wise legislation of Congress The city of Philadelphia is flourishing beyond example. While New York is decreasing, she is increasing. It has not been the policy of Mr. Biddle to strangle the active men of business, but to encourage them, thereby strength ening the city, the State and the Bank. It is not, as every man of sense knows, the suspenmon of specie payments, of itself merely, that distresses the community. It is the went of a airculating inedium to quicken into action the general industry of the country. The Banks. by the hostility of the Government, and the demagogue vituperation of its official organ, the Globy, as well as by the demand of specie, ex-wid. these, therefore, who have it may an wid. these, therefore, who have it may an individual to the an expectable in the state of the

The reason for this these executions, except in the provided, as to the following for their interest and convenience, been explained by Mr. Jewett. "It won t do to that introduct to the provided in the short death and ban should be annuled by a few application of the manufacture." should be punished by a fine not exceeding ten thousand dollars, and confinement to hard labor not excreding ten years!

How much more wise and better would it be for all the local banks during the suspension, conscious of their own solvency, to have dared to have exercised the prerogative of strength and afforded the aid that business required, und not to have weakened themselves and their bor rowers by suffering their property to be socrificed, and their operations, so far as they might have been safe and profitable, to have been aus-

The people want an adequate currency, and would willingly take the notes of firm and solvent banks, and quietly wait for the resump tion of specie payments, till Government shall Dank, or make a treaty of amity-with the focal city

- AN ORSERVER AT WASHINGTON

A PEEP INTO THE LOCO-FOCO CAMP. To the Editor of the Whig & Courter

In a former communication, I alluded to the tact, that a paper called "the Democrat" had been established in this city, by a trio of exoffice-holders, (denuminated the Trusters or Guardians,) who are extremely desirous of leading the Loco-focus on to victory. These men having volunteered their services for the accomplishment of so stupendbus an undertaking, it was remarked as rather unressonable, that any were to be found among the Loco-focos who were disposed to doubt the political integrity of the amiable Chairman and his two self denying disciples. Since penning that remark, I have been led, not altogether intuitively, however, to see quite palpable cause for disaffection and heartburnings

In the first place, then, there seems lo have been quite a "plot" laid, in the establishment of The Democrat," and one which does not work as democratically as many honest and unsuspecting Luco-focus anticipated - It appears to be but a sort of ' springe to catch woodcocks" - no, not woodcocks, but ten dollar bills!

The printing materials used in the office of the late "Post, ' were to be purchased before 'The Democrat' could be assued. Here was a large sum to be raised in the outset. "How shall it be raised? was the all-engrossing inquiry. Mr. Jewelt, who has since consistent numself the "Alpha and Omega," the gener aliestino of the party, was put to his trumps he doubted the policy of purchasing the types which had been used in pruising the ' Post' He thought the types which had told so hisny. and to him unpalateable truths, could never be made to unsay what they hall said. The anna ble chairmin of the trustees, had not, at this time, entered beyond the threshhold of the not received with that solut which is generally by Mr. Aiken's pupils, the specimens of which wheedled by a pack of pockering kinves, who awarded to whatever falls from his lips. Leave quackery to ducks and geese There is the greatest internal evidence in the long advertisement about this medicine, that it i was originally written, as has been asserted, for a burlesque upon every thing of that kind, but that it was purchased by some fellow who had more faith in the reedulity of the public than its author had, and that the medicine was ; afterwards compounded to go with it,
